DETAILED ACTION

1. The Final Rejection mailed 07/09/2008 is withdrawn since the reference of Klumb (US 6,488,700 B2) does not meet all the claimed limitations, as stated in the interview summary. This office action replaces the Final Rejection mailed 07/09/2008.
2. Previously withdrawn claims 20-27, based on an election of species requirement, are dependent on generic claim 15 and therefore rejoined. Claims 15-27 are now pending and found allowable.

Allowable Subject Matter

3. The following is an examiner's statement for reasons of allowance: the prior art of record does not teach or render obvious an untethered intravascular device comprising a closed loop of material that is substantially straightened when folded to extend parallel to the feed direction and elastically biased to a predefined curve that is perpendicular to the feed direction. The device is further circular as viewed along the feed direction and curved when viewed along a direction perpendicular to the feed direction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
